

My Home Learning Journey Grid: Week beginning: 27/04/20

Phonics

Your child will need to learn to read a selection of tricky words. They could practice them by playing snap with the words, bingo, or you could even hide them around your home for your child to find and read! Tricky words of the week: **into, he, she, we, me.**

Can you think of any words that rhyme with; **cat, dog, hen**? Can you write them down in your book?

Please log onto the RWI website to watch the live phonics lessons; phase 2.

Special Family Task

Can you build a den using different materials from your home? Maybe you and your family could read a story together in your den and post onto Tapestry to get entered into Mrs Bradley's reading competition!

Add your photos and videos onto Tapestry. Also check the school website to see pictures of what your friends have been up to!!

Maths

Choose an object and then find 5 things that are longer and 5 things that are shorter than your object. Repeat with other objects.

Place number cards 1-10 on the floor, ask your child to turn one over and to then place that amount of objects next to the number card; e.g. 5 buttons next to the number 5 card.

Challenge! Increase the numbers from 1-20!

Can you find 5 things that match each colour in the Rainbow?
