

Geography

This week I would like to learn about two rivers in Britain:

The River Thames and the River Severn

For each river find out:

Where is the source?

Where do they flow through?

What does the route of the river look like? (Can you find a map of the river?)

How long is the river?

Are there any landmarks on the river?

How many cities does it flow through?

Can you find out any tributaries?

Which sea do they flow into?

Can you draw the river on the blank map?

How you wish to present your information is up to you.

Below are some useful video links:

River Thames

<https://www.youtube.com/watch?v=l-znrVgVyck>

River Severn

<https://www.youtube.com/watch?v=yyMJDZOM7XI>

Can you draw on the River Thames and the River Severn onto your map?
