

Down in the Jungle  
My Home Learning Journey Grid: Week beginning: 13/07/20

## Phonics and Writing

Play a game of eye spy. How many objects can you find in your house that begin with the sound...

What is your favourite animal? Can you draw a picture of it and write some information about it?

Please log onto the RWI website to watch the live phonics lessons; phase 2 and 3.

Search for colours in the natural environment. Which colour do you see the most, which colour is hardest to find?

## Special Family Task

Play catch together as a family (if you don't have a ball you could use a pair of socks).

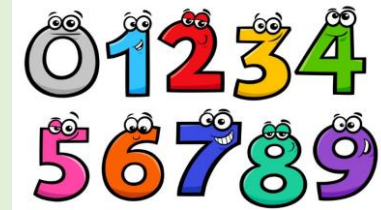

See how many times you can catch the ball without dropping it. Can you improve your family score?

You could add extra challenge into the game by standing on one leg if you drop the ball!  
Make up your own rules and have fun!

Add your photos and videos onto Tapestry. Also check the school website to see pictures of what your friends have been up to!!

## Maths

Can you say what one more or one less than a number is? Perhaps you could have some numbers displayed on the walls/on the floor. Your grown-up could say a number and you need to go and touch the number that is one more or ones less.

Can you measure different items around your house? You could measure how many books long your sofa is, or how many footsteps your rug is. How many teddy bears long is your bed? You could write down your findings. You could measure your family members too. Who is the tallest/shortest?
