

This week at WGPA ...

Term 4 – Monday 4 March 2024

WEST GRANTHAM

Church of England Primary Academy

Dear families,

Last week our CEO Mr. Moodie visited school, he commented on the calm and purposeful learning that he saw taking place. He was impressed with our new learning environments; he loves the fact that we are now altogether on one site! Mr. Moodie had great fun outside at playtime and enjoyed taking the time to talk to the children.

We are looking forward to Year 2's class assembly on Wednesday, the children have been busy rehearsing, we hope that as many parents possible can join us as they talk about our Church School Value of 'Love'.

Mr Hardy, our Art lead, was invited into Year Two and the artwork that he saw was truly outstanding! The children in Key Stage One are looking at work created by the artist Picasso. Our Year One children created fabulous artwork using line only, they went outside to explore this further using chalk and string, the results were fabulous.

Our Pastoral Team will be at the Hope Café on Wednesday morning so please do pop in and see them if you can, as always we are here to support in any way that we can.

Finally, I am excited to see the competition entries from World Book Day, I wonder who will win the prize for the most interesting place to read a book?

Mrs Smyth

Key diary dates for Term 4:

Monday 19th February

Start of Term 4

Wednesday 6th March

Year 2 Class Assembly

Thursday 7th March

World Book Day

Monday 11th March

KS2 Girls Football Festival

Friday 15th March

Wednesday 27th March

EYFS Class Assembly

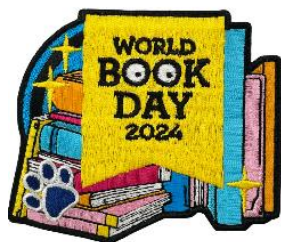

Thursday 28th March

Last Day of Term 4 and Values Awards

Tuesday 16th April

First Day of Term 5

Every Wednesday Café drop in led by our Pastoral team in school

We are really looking forward to World Book Day on Thursday! Just a quick reminder that you do not need to spend lots of money on a costume as we want to focus on the love of books and reading. The children can come in something comfy ready to curl up somewhere with a good book. Please no PYJAMAS, ONESIES, MAKE UP OR COLOURED HAIR.

Year 5 investigated components and circuits - as part of our science curriculum. We explored the components and created our own basic circuits. By the end of the lesson, we were able to identify a range of components, draw their scientific symbols and record what they are used for. As you can see...both the circuits and pupils were buzzing!
